statista

Statista is a partner for your **entire institution**

Students, professors and staff can benefit from Statista

Statista for everyone

Use statistics for validation of theses and dissertations. Utilize forecasts for forecasting models and quantitative analysis courses and Market Insights for analyzing trends in multiple markets for sample business models, including Citation Tool to verify citations and avoid plagiarism.

Graduate programs

Reports for preparing projects and reports like those required in the corporate environment. Use Industry Reports familiarizing anti-trust law and business economics students with their assigned industry. Understand organization's financials, demographics, and competitors.

Foreign language departments

Different language platforms for accurate data research. Global Data for familiarizing with foreign nations' economic, political and demographic activity.

statista

Statista is a partner for your **entire institution**

Students, professors and staff can benefit from Statista

Marketing and PR

Reports for researching advertising spending of Fortune 500 companies. Infographics for insightful presentations and creative content for their marketing campaigns. Industry Reports for mock-RFPs or marketing campaigns with a view on industry performance.
Third-party funds

Use current data to situate your research in recent developments and justify its research relevance. Get information on different topics from one source to support interdisciplinary research. Our application-oriented data is made available to you via direct download.

- 25+ markets & segments

statista

Access the world of consumers with data based on more than 2 million interviews

Understanding consumers and brands

Gain a global perspective on consumption

The Statista Consumer Insights offer you a global perspective on consumption and media usage, covering the offline and online world of the consumer. They are designed to help you understand consumer behavior and consumer interactions with brands.

- Survey data based on 2+ million interviews
- Regularly extended surveys on trending topics
- Online tool allowing customized target groups

statista
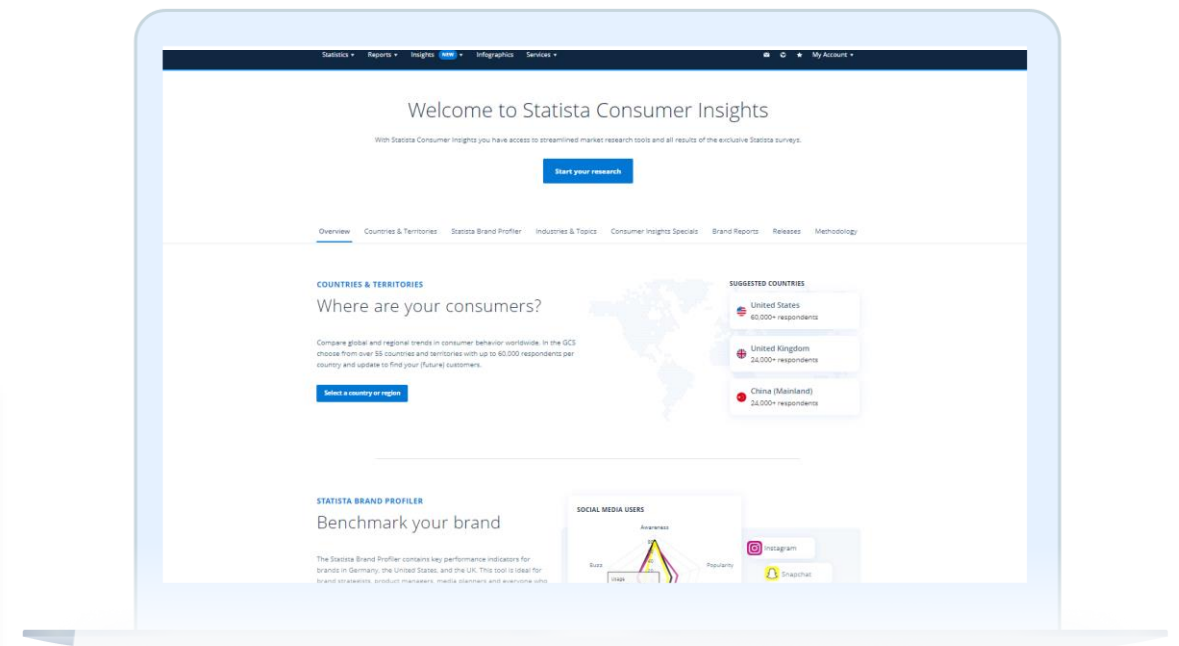

Our large survey database allows you to understand any audience on a deeper level
Consumer Insights: Surveys

The Global Survey

In our main survey, we conduct over 2,000,000 interviews with 3.5 billion consumers in four waves yearly. The survey covers 56 countries and territories and over 15,000 brands, so you can be sure to find the answers you're missing.

Further surveys

The Global Survey is regularly extended by survey data on the most relevant industries and trending topics. Dig even deeper into consumer attitudes towards pets, holidays, eSports, and many more, to know what drives your audience.
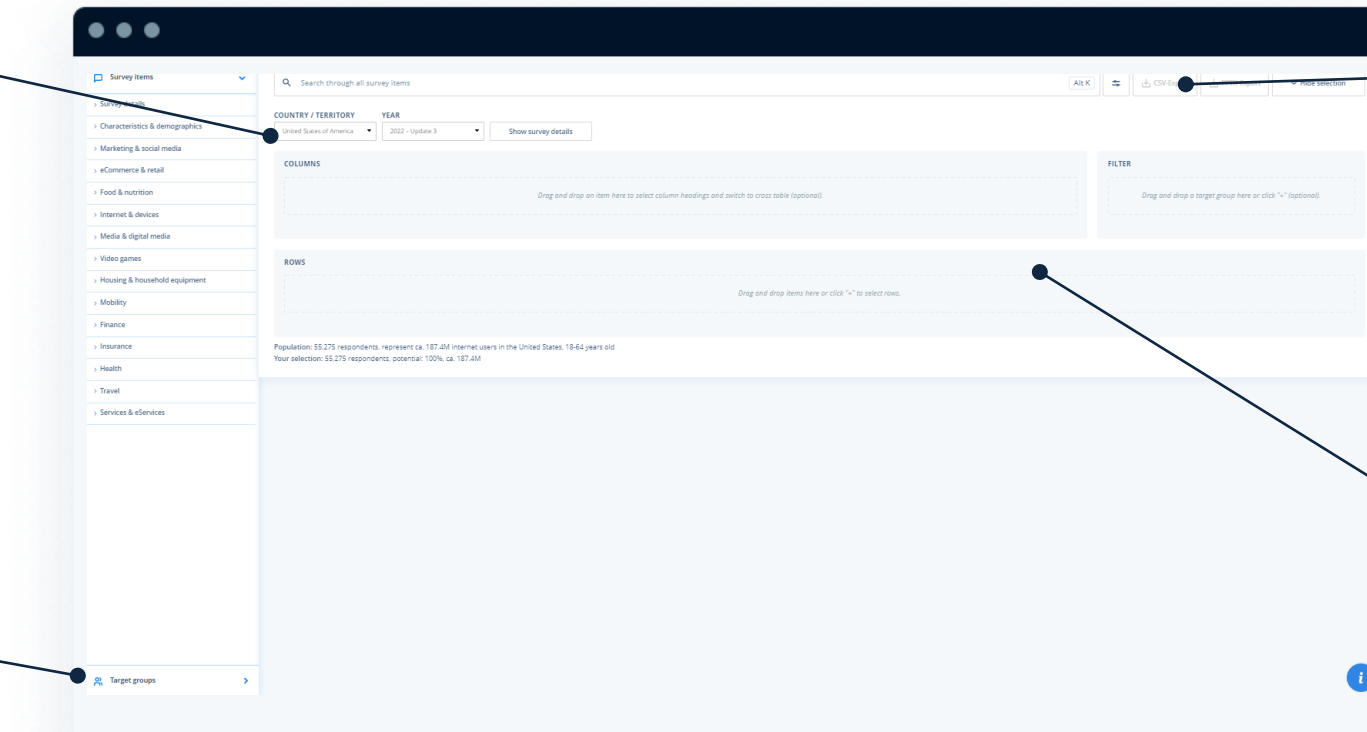

statista ⅃

Analyze and create **personalized** target groups

Consumer Insights: Tool

Compare countries and regions

Export in CSV and PPT

Define and filter by personalized target groups

Use cross-tabulation to find trends and patterns quickly
statista

How many people know, like, and buy **which brand?**

Consumer Insights: Brand KPI Survey

Benchmark various brands

The Consumer Insights Brand KPI Survey won't leave you guessing. Find out how various brands perform in terms of awareness, popularity, usage, brand loyalty, and media buzz, **and build a successful brand funnel.**

The Consumer Insights Brand KPI Survey covers brands in Germany, the United States and the United Kingdom, including those from traditional industries as well as new growth markets.

SOCIAL MEDIA USERS

Awareness · Popularity · Usage · Loyalty · Buzz

Instagram · Snapchat · TikTok

statista

Use Consumer Insights to **inspire your teaching and research**

How students, professors, and employees can benefit from Statista Consumer Insights

Exploratory data analysis

Conduct **explorative data analyses and quickly test hypotheses** across a wide range of topics with our Consumer Insights tool. Customizable data filters make it possible for students and researchers to identify patterns, uncover relationships, and generate new research questions.
