Syllabus	
Course Prerequisites	Being a first-year exam, there are no specific prerequisites other than those required for admission to the Study Programme.
Teaching strategy	Lectures, Active learning discussion sessions, workshops, seminars, small groups or team work. Use of multimedia tools (power point, etc.)
Expected learning outcomes	<p>The course is intended as a reflection on the structures of the Communities, starting from the legal roots of Mediterranean society. Their models, based on the thinking of jureconsultes and the values of society, will be examined in both the diachronical and synchronic dimensions, in the temporal dimension and in the current projection.</p> <p>Upon successful completion of this module, the student should:</p> <ul style="list-style-type: none"> - have profound knowledge and understanding of the origins and development of constitutional structures, regulatory and procedural models of Roman legal experience, as well as the main dynamics of the interpretation and application of legal rules, techniques and case-study methodologies developed by Roman jurisprudence. - understand and explain the different forms of government, procedural systems, and the production of law, including their effects on the European legal tradition. - demonstrate skills and ability to fully communicate the notions in their own way using technical-judicial language. Mastery of argumentation techniques in communicating opinions expressed. - demonstrate capacity to read and understand other texts on the related topics.

<p>Contents</p>	<p>The roots of democracy and the state Contemporary. The roman experience. Law. The sources of law. The public res; the senatus; the comities. Centrality of the people.
