TITLE I

Transfer for enrolment in years subsequent to the first in the Bachelor's and Master's degree courses with scheduled access related to the School of Medicine for the Academic Year 2024/2025.

Art. 1 – Available places

The number of available places for enrolment in years subsequent to the first, in the quotas they belong to, for each year of the course, is established annually by 30.05.2024, according to the indications provided by the Healthcare Professions Unit (Directorate of Educational Offer and Student Services - Medical Sciences Student Secretariat Section), exclusively within the limit of the places made available for each year of the course, in the relevant contingent, following withdrawals from studies, transfers of headquarters to enrol in the same degree course or transfer to another course in foreign universities, transfer to another course in the same or different university in Italy or in any case, in the presence of facts suitable to materialize the definitive vacancy of the place in the year of the reference course, in relation to the places defined at the time in the annual planning decrees, published by the Ministry of University and Research. The related NOTICE will be published on the website at the following addresses: <https://www.uniba.it/it/scuole/medicina/studenti/regolamenti>

The assignment of places in the headquarters for transfer from another university will be made after the change of headquarters.

Art. 2 - Admission Conditions and Requirements

Students enrolled in the same degree programme at other EU or non-EU universities and students enrolled in another degree course, who have regularly attended at least one academic year, as well as students already in possession of a bachelor's degree, may apply for authorisation for enrolment in years subsequent to the first.

Such requests can only be considered within the limits of available places, in compliance with the national scheduling in force for the specific year of the course of reference and the availability of places (for example: students enrolled in the second year of the course for the A.Y. 2023/2024 will be able to apply for the A.Y. 2024/2025 for the third year of the course after checking the availability of places).

It is not permitted to enrol in years subsequent to the first with the qualification of repeating students (“ripetenti”), from other degree courses as those students who have regularly enrolled in the relevant year of the course following the passing of the admission test set for the academic year in which they participated and the relative available places.

For international students knowledge of the Italian language is required.

Non-EU citizens residing abroad must comply with the rules set out in the Circular of the Ministry of University and Research in "Procedures for entry, residency and enrolment of foreign/international students for higher education courses in Italy for. A.Y. 24/25" and must submit their application for a study visa for A.Y. 2024/2025 exclusively through the University portal. Please consult the specific web page with links and detailed instructions: <https://www.universitaly.it/studenti-stranieri>

If these students enrol for the first time at the University in Italy, they will have to take and pass the Italian language proficiency test, except in the cases of exemption provided for by current legislation and suitably proven by means of the relevant qualifications. All the information relating to the completion of the Italian language proficiency test will be made known by the International Students Unit (orsola.castoro@uniba.it). All candidates will be conditionally admitted to the selection.

The President of the Evaluation Committee may, at any time, with a reasoned decision, order the exclusion for failure to meet the prescribed requirements or for false declarations; the interested party will be notified of this measure by e-mail.

Art. 3 - Procedures and deadlines for submitting the request of authorisation

The application for authorisation, as well as the documents deemed useful for the selection, must be submitted, under penalty of exclusion, electronically, using the computer application dedicated to the page: <https://pica.cineca.it/uniba/2024trasf-ppss01/domande/>, starting from 16.07.2024 by and no later than 19.08.2024 12:00 (Italian time). The access to the procedure takes place on the PICA portal (Integrated Platform for University Competitions) which can be accessed after registration or with SPID credentials, as indicated in the Guidelines (Annex A).

The computer application will necessarily require the possession of an e-mail address in order to self-register in the system. The candidate must enter all the required data for the production of the application and attach the documents in electronic PDF format.

The application form must be completed in all its parts, as indicated in the online procedure, and must include a copy of a valid identity document and a copy of the payment of the fee for participation in the competition. Once the payment has been made, the candidate must submit the application and ascertain the status of the same, which will pass from the "draft" mode to the "submitted" mode; the electronic submission of the application form is certified by the computer system by means of a receipt that will be automatically sent by e-mail. Each application will be assigned an identification number which, together with the competition code indicated in the computer application, must be specified for any subsequent communication. At the end of the submission deadline, the system will no longer allow access to and submission of the electronic form. No other forms of submission of applications or documentation useful for participation in the procedure are allowed. In the case of access to the platform by means of SPID, the procedure will not require the signature; in all other cases, the application must be signed:

- **by digital signature**, using smart cards, USB tokens or remote signatures, which allow the holder to sign generic documents using signature software on a PC or a web portal for Remote Signature made available by the Certification Authority. Whoever has a smart card or a Digital Signature USB token can verify its compatibility with the Digital Signature system integrated into the server system. In the event of a positive outcome, the holder will be able to sign the application directly on the server (e.g. ConFirma);

- **those who do not have compatible digital signature devices** and Holders of Remote Digital Signatures who have access to a portal for signing generic documents, must save the PDF file generated by the system on their PC and, without modifying it in any way, digitally sign it in CADES format: a file with the .p7m extension will be generated which must be re-uploaded on the system. Any amendment made to the file before the Digital Signature is applied will prevent the automatic verification of the correspondence between the content of this document and the original one and this will exclude the application;

- **if it is impossible to use one of the above options**, the candidate must save the PDF file generated by the system on his PC and, without modifying it in any way, print it and affix the complete handwritten signature on the last page of the printout. This complete document must be produced in PDF via scan and the file thus obtained must be uploaded to the system.

Applications received in a manner other than the one indicated will not be considered valid. Participation in this competition involves the payment of a contribution of € 50.00.

The above-mentioned participation fee is non-refundable for any reason, pending its destination.

The candidate must pay the fee by clicking on the "Paga con Pago PA" button and choose one of the following online payment methods:

- ✓ Credit/debit card: for payment with cards;
- ✓ Bank account: for direct debit to your account;
- ✓ Other payment methods: for example PayPal or Satispay

All candidates are conditionally admitted to the competition. The procedure for filling in and submitting applications online can be carried out from any computer connected to the network.

For technical problems, please contact the "**technical support**" indicated at the footer of the application procedure.

Candidates are invited to complete the application for participation in the selection well in advance of the deadline of this call. It is responsibility of the candidates to verify the correct conclusion of the procedure. Complaints will not be accepted for any malfunctions of the computer system due to overloads encountered by candidates close to the deadline. The payment of € 50.00 does not constitute registration for the selection test, even if it is made within the deadline of the call for applications, in the absence of sending the application form. The documents required by this Call must be attached, in PDF format, to the application form.

Disabled candidates in possession of a certificate of disability equal to or greater than 66% or disabled with certification pursuant to Law No. 104 of 1992 art. 3, paragraph 3, must attach to the application suitable and proven documentation.

Once completed, the application must be printed, signed and re-uploaded in the procedure following the instructions described in the online procedure. The absence of a signature and/or identity document are grounds for exclusion from the selection. In the case of authentication with the use of SPID (Public Digital Identity System) credentials, it will not be necessary to sign the application.

The ID number of the application form will be used as an "identifier" for the preparation of the rankings, in compliance with current legislation on privacy;

The ID number of the application form will be communicated to your email address at the end of the application form to this procedure.

- ✓ number of university training credits (ECTS) acquired and recognisable;
- ✓ number of taken exams and related grades reported.

During the evaluation phase, the Commission will take into account the requirements set out in the individual teaching regulations of the degree courses:

- ✓ year of course in which it is possible to enroll the student due to the validatable exams e of the relevant recognizable credits, taking into account the teaching regulations of the degree course.

Applications found to be formally suitable will be accepted within the limits of available places. If in the same course year a higher number of students than available places are eligible, a ranking will be drawn up based on the following criterion:

- ✓ arithmetic mean of the marks obtained in the exams within the deadline for submitting the application multiplied by the number of related credits acquired from the aforementioned exams divided by total credits expected from the relevant degree course, according to the following algorithm: “med.artm.es. X (Aquired CFU /tot. CFU.) ”, from the first year to the year of last enrollment, based on the study plan of this university.

In the event of a tie, disabled candidates in possession of a disability certificate equal to or greater than 66% or disabled candidates with certification pursuant to law No. 104 of 1992 art. 3, paragraph 3, placed in a useful position in the ranking relating to enrollment in years subsequent to the first, following the recognition of the relevant credits and the necessary preparatory requirements, as well as after ascertaining the documented availability of places at the university for the year of course in which they request enrollment, have preference over candidates not falling into the aforementioned categories.
